# The Revised High School Program

With the additional accommo dation and equipment supplied by the Board, and because of the determination of the Principal to have the Crossfield School offer the best possible educational opportunities, we are looking forward to the next school year with much satisfaction.

The Revised Program of Stud for the High School has been designed to serve the educational needs, not merely of a relatively small group of students who will proceed later to advanced academ. ic or professional training, but all of our adolescent boys and girls. The new program recognizes the wisdom of providing educational experiences for a group of young people who vary greatly in capacities, aptitudes and interests Such a revision must, of course, be brought into effect gradually but a beginning is being made this year. The implications of this general principle may be interpreted as follows

(1) Not all students will be required to take the same subjects of instruction, or to attain the same standards of achievement.

(2) Students may proceed with a certain group of subjects which lead to the High School Diploma, tead to the high school Diploma, or they may decide to earn those credits which lead to Senior Matriculation. There is no mark of prestige attached to any particular selection of subjects.

(3) The older classroom procedures associated with the memorization and reproduction of verb-alized material from books will give place to procedures that ensure a live, meaningful type of classroom experience.

(4) Because of qualifications of teachers, standards maintained, and organization in effect, High and organization in enect, high School credits will be granted for attendance since it may be assum-ed that a desired mental, social and personal growth will be the result, Credits will not be granted merely for "passing examinations"

(5) The Program will facilitate a desirable growth and develop-ment in personality through social experience and will give ample opportunity for the free play of opportunity for the free play of critical intelligence, and will provide means for mastering the techniques and practices of the democratic way of life.

#### CANADA AND U. S. SIGN AGREEMENT

The good neighbor policy, characteristic of relations between Canada and the United States for long years, was placed on a concrete base on August 18 last when Prime Minister MacKenzie King and President Franklin D. Roosevelt signed an agreement at Ogdensburg N.Y., for the mutual defense of both countries.

Exactly two years ago, on that date, President Ruosevelt had stated in Toronto: "I give you assur-ance that the people of the United States will not stand idly by if domination of Canadian soil is threatened by any other Empire". The practical means for carrying that assurance out were sealed in the agreement reached by the lead ers of the two countries forming the northern half of the western hemi-

Text of the joint statement issued after the historic meeting follows:
"The Prime Minister and the

President have discussed the mutual problems of defense in relation to the safety of Canada and the United States.

"It has been agreed that a perm anent joint board on defense shall be set up at once by the two count-

ries.
"This permanent joint board on This permanent joint board on defense shall commence immediate studies relating to sea, land and air problems including personnel and material.

"It will consider in the broad sense the defense of the north half of the Western Hemisphere. "The permanent joint board on defense will consist of four or five

members from each country, most of them from the services. It will meet shortly."

Two days after this joint state ment was issued Captain Victor G. Brodeur, R.C.N., and Colonel H. F. Brodeur, R.C.N., and Colonel H. F. G. Letson, M.C., were appointed naval attache and military attache respectively at Washington.

Thursday August 29th 1940

Harvest time is here again- and what a bountiful harvest Beautiful gardens, and fields of golden grain, truly a generous gift of Providence. Citizens too, have been generous with gifts of garden produce and flowers. Hardly a day passes but we notice some one making a generous donation to his neighbor who has no garden.

Financial assistance is greatly needed for some of the farmers at their crop. Harvest time calls for quite an outlay of cash, and if funds are not available it means that a great deal of the year's work

It seems that it would be good business on the part of the govern-ments to come to the assistance of these needy farmers, particularly at this time, the beginning of harvest. Under the present set-up the farmer with 300 acres, for example, is allowed to deliver 5 bushels per acre, which would be 1500 bushels. This in itself would not produce enough cash to meet but a small portion of the farmer's needs, and if this is not available now, what will he do for cash to meet the usual expenditures de manded before he can attempt to

What is required is some ready cash made available through the banks guaranteed by the govern-ment, which would allow the farmers to proceed with harvest without any handicaps

Machinery, labor, twine, food and clothing are first essentials to be met with at the beginning of harvest, and at this day and age it is almost impossible to think of getting credit on your entire re-

A Board of Trade meeting should be held early in September to take care of any current business out some time now, and some follow-up action should be taken.

A program should be arranged

After the warning the Villag Council gave the boys and girls at the last council meeting about riding on the sidewalks, apparently some of them have forgotten all about it, as we notice quite a number using the walks for a speedway. One accident was just avoided on the corner of Nanton and Railway when a boy came speed ing down the walk just missing a pedestrian by inches.

# SMOKE SCREEN

We all know we are in a fight for liberty to a finish. Do the Pool Officials? If the Pool officials do then why try and capitalize on the war? This is no time for such abominable tactics.

Why mix up knowledge of momentous national decisions with Pool propaganda such as recently appeared under the headings of "Humanity Has Struck its Tents" and "Eternal Vigilance Is The Price Of Liberty"?

If the officials really desire to give Pool members worthwhile information and believe that "eternal vigilance is the price of liberty" We would suggest two questions that must be frequently in the minds of former Pool farmers.

When will a payment be made on the \$29,000,000 that was taken for Elevator and Commercial Reserves?

Do these officials realize that not one cent has been paid in interest on that money for ten long years?

There are many more questions might be asked but there

#### Shipbuilding Ahead of Schedule

In addition to the well advanced naval construction program in. volving the building of 92 vess of which a portion is now afloat, the Canadian ship conversion program in progress since the start of the war, is proceeding ahead of schedule. Many converted ves sels are now in service on the high seas with the Royal Canadian Navy

There is an old English proverb worth remembering in these days: "Money lost, little lost; honor lost, much lost; pluck lost, all lost,"

# Navy Nearly Six Times Stronger Than A Year Ago

The Royal Canadian Navvisnow nearly six times atronger than it was a year ago, according to a was a year ago, according to a Royal Navy, noting the British estatement made by Hon. Angus L. Admirally a praise for the work of MacDonald, Minister of National Canadian destroyers in hazardous Defense for the Navv. In augurating his press conferences; the Min- of ships. ister gave an encouraging report of activities since the start of the war dwelling on the Navy's expansion, on the high quality of its work per-formed while seeing service with the Royal Navy and pausing long enough to hit at Nazi planted rum ng ship movements.

EXPANSION: The Canadian fleet has grown from 15 vessels, a year ago, to 120 vessels now com-missioned for active service. During the coming year 95 more ships will by Nazi agents, these rumours are swell this total to 215. These in meant to lull authorities into relax-clude three destroyers. More than ing consorship rules 15,000 men are busy in Canadian shipyards pushing the shipbuilding

shipyards pushing the shipbuilding program abead of shedule.

The personnel of the Navy has grown to about 10,000 officers and men. More are being trained every day to meet growing needs.

WORK PRAISED: A cablegram worth Frails D: A canogram from Hon. Vincent Massey, Cana-dian High Commissioner in London was read by the Minister. It paid high tribute to the units of the Canadian Navy in action with the Royal Navy, noting the British

The men of the Canadian Navy serving in units of the Royal Navy and the officers in training in England were singled out for special praise. Over 400 men of the R.C.N. are with the British.

RUMOURS SPIKED: Rumours to the effect that the enemy broadcasts departures of ships and convoys from Canadian ports have never been authenticated. Planted

"Dad, is there any difference between a gun and a machine gun?"
"Yes, my son — it is just about

the same as if I spoke and then your mother spoke."
